*exterminator*

Hi,

I need to have the exterminator come to my condo to spray. There have been several, in fact many, of those big cockroach type bugs in my place over the past few weeks, and the problem only seems to be getting worse. My downstairs neighbor stopped me on the street just the other day and shared that her unit is getting a lot of those bugs too. I suspect that my unit, along with my neighbors', will need to be treated.

Thanks so much.

1662 Fitzgerald - treat kitchen for mice

I have mice under my sink and I'm not sure how they got in my unit but judging by the droppings there's a lot of them. Probably best to have someone check it out sooner rather than later.

*Wasp or Bee Hive*

Hi,

Thank you for spraying for the carpenter bees recently at 3218 Ravensworth Place. I just noticed today that there's (what looks like) the beginnings of a wasp hive outside my back window, second floor, backside of the building. Could you please remove it?

Please let me know if you have any questions about this request.
